WHAT TO EXPECT – PLANNING PHASE

Fall 2010 Schedule:

Flight One: August 30th through November 7th

Flight Two: October 3rd through December 12th

Preparation:

In order for the program to be successful, detailed preparation will be needed several months prior to the program start date. The majority of the Pastor's and Chair's work will take place 4-6 weeks prior to Week 1 of the public program. The Program Director (CCS counsel) will be in contact with the pastor, parish secretary and Chairperson several times a week during this timeframe to ensure the process runs smoothly and to provide hands on assistance when needed. Some parishes may begin the preparation process in May or June to avoid summer scheduling conflicts.

Once the active program begins, the Pastor's role will be limited to attending volunteer meetings and speaking from the pulpit about the program. The Chair will help manage the volunteers during the active program as well as provide a Lay Witness during Mass and chair volunteer meetings.

Leadership recruitment is the top priority.

Pastors are encouraged to recruit a Chairperson who can help with the recruiting process. **This Chair should be identified prior to the summer.** The Pastor and the Chair will spend several weeks recruiting 5-15 Team Captains (depending on parish size) in time for the first meeting of the program, which will be the beginning of September or the beginning of October depending on the parish's Flight placement.

Recruiting an organized Program Secretary will also help reduce much of the workload during the program as he or she will take charge of the coordinating the printing, mailing and bulletin submission processes. Suggested recruiting scripts are included in this manual along with descriptions of the various leadership roles.

The final piece of the Leadership Team will be **the Team Captains**. This team will need to be recruited during Week 1 of the program. The Team Captains will then recruit and lead the Volunteer Advocates (1 Advocate per 20-30 Households) who will be the important link between the effort and every household in the parish.

Writing the Local Case for Support and Letters is the next priority.

This can take several weeks and will require **input from parish staff and the Finance Council**. Identifying the projected uses of the new revenues is essential as it is a question that is bound to arise from parishioners, and a compelling case for support will help encourage parishioners to increase their levels of support. Sample letters are provided and can be altered to whatever specifications the parish desires. The brochure will have space for two pictures. It is recommended that at least one of these photographs be of ministry or parish life. These pictures should be taken prior to the summer.

Segmenting the parishioner lists is the third priority.

This will take some time. Unfortunately, not all parish databases are created equal. For some parishes, this will be a one-step process and for others it may take weeks of data entry. Getting started early is the best way to ensure that the list is **ready by the 4th week of the program**, when it will be needed for the request mailing. Your Program Director is ready to help with this process, by guiding your staff through exporting the list and by handling the segmentation.

Careful segmentation of the lists to ensure appropriate request letters are mailed to all parishioners is essential to a successful effort. Request letters will be segmented into five levels of givers:

1. Non-Donor (inactive)
2. \$.01 -\$7.99 regular giving
3. \$8.00 - \$14.99 regular giving
4. \$15.00-\$24.99 regular giving
5. \$25 and above regular giving

Establishing an Electronic Giving program is the fourth priority.

This will take several weeks to set up and the *Sharing Our Blessings* Office is available to guide your staff through the entire process, including researching local banks or providing estimates from vendors.

The benefits of an electronic giving program are obvious: consistent giving over 52 weeks; a way for a parishioner to increase his or her own giving without increasing the amount they give each time; and an automated way for the parish to input donations directly into the database without data entry.

Banks are the recommended option if the parish likes having a local branch to stop into when needed and wants to go the most affordable route over the long run. Establishing an account with one of their branches is required, but usually they offer free accounts. Athol Savings and Unibank are the least expensive option of the banks researched thus far.

On-line vendors are the recommended option if ease-of-use is a high priority. Credit cards and bank account withdrawals are handled on the same program. Parishioners control their own donations on-line or they can call if they don't have internet access. Vendors will deposit the funds directly into the parish's existing account.

Active Program:

Once recruitment, document production and list segmentation are complete, the process will in some ways slow down. The Program Director will still be in regular contact, but will only be in the parish on meeting days or on mailing days. The Pastor's role will switch from an active recruiter to a message deliverer and the Chair will take on more of a supervisory and cheerleader role. The expectations of each position during the public portion of the timetable (September or October onward) are outlined below:

Night Meetings:

The Pastor and Chair should expect to attend **three volunteer meetings** (typically at night) and have a role in explaining the program to the volunteers. The meetings will last less than one hour. The Pastor (or Associate / Deacon) will open and close the meetings with a prayer. The Pastor and Chair will help answer questions from volunteers. The Chair will guide the conversation, help explain the program to volunteers and lead the assignment process. The Program Director will help explain the program and will conduct the training of volunteers.

The first meeting will be for Team Captains (8-12 parishioners) and will last less than one hour. The second meeting will be for Advocates and Team Captains (1 volunteer for every 20-30 households) and will last approximately one hour. The third meeting will be a report meeting for the Advocates and Team Captains and will last approximately 45 minutes. The Program Director will provide all materials. The parish can provide refreshments if desired.

Weekly Bulletins:

The Program Secretary will be charged with submitting bulletin language to the Parish Secretary every week throughout the program. The Program Secretary will have all ten weeks of announcements prior to Week 1 and will be responsible for updating the statistics and seeking input from the Pastor and Chair prior to submission.

Pulpit Announcements:

The Celebrant, Chair or Lectors will have **announcements to make each week**. All will be very brief. The Program Secretary will be charged with submitting these announcements to the Parish Secretary or Liturgist every week. The Program Secretary will have all ten weeks of announcements prior to Week 1 and will be responsible for updating the statistics and seeking input from the Pastor and Chair prior to submission.

Preaching:

The Pastor and Chair will be asked to make one presentation each on behalf of the program. The Pastor's presentation will be in the form of a Homily dedicated to the principles of Stewardship. The Chair's presentation will be in the form of a Lay Witness to the act of increasing financial support to the parish. Examples from the Pilot Phase are provided in this manual.

Commitments:

Commitment Weekend is the time for parishioners to make their intentions known. Commitment Forms will be turned in early, but most will wait till this date. The process takes place during Mass and will last approximately eight minutes. Ushers or volunteers will be needed to distribute and collect Commitment Envelopes, and the Pastor will provide instructions from the pulpit on completing the forms. **Expect 35% – 45% of active parishioners to make decisions by this date.** Another 3%-5% will respond through the follow-up process.

Mailings:

There will be the equivalent of three mailings to the entire parish. The first will be an announcement mailing; the second will be the request mailing; and the third will be follow-up letters and thank you letters. Each letter will be personalized via the creation of mail merges directly from the parish list.

Ideally, all letters, brochures and envelopes will be printed during the summer and set aside until the actual mailing date. Volunteer folders, stuffers and stampers will be needed for all three mailings. **The parish should expect to budget \$2.50 - \$3.50 per household** for postage and printing costs.

1. Mailing #1 is a letter from the Pastor announcing the *Sharing Our Blessings*. This mailing includes a brochure that outlines the concept of stewardship giving explains how increasing giving will help meet the needs of the parish.
2. Mailing #2 includes a letter asking parishioners to consider a specific gift increase, as suggested by an enclosed gift plan card, and a commitment form (attached to the letter) on which each household indicates their increased giving intentions
3. Mailing # 3 will be sent to all non-respondents following Commitment Weekend. A reply envelope will be included in order to give parishioners a final opportunity to make their commitment.
4. Thank you letters will be sent from the pastor to all participants.

Post-Commitment Weekend:

Following a successful Commitment Weekend, there will be new information that a parish must immediately begin to analyze and record. Additionally, certain steps should be taken to ensure parishioners follow-through on their intentions to increase. A parish should also adopt a plan to conduct annual renewals of commitments in order to keep giving levels up and capture new commitments.

Data Entry:

Following Commitment Weekend, there will be much information available for the parish to update on each parishioner. **Email address, telephone, address and name changes** will be provided to the parish by parishioners. Parish staff and/or the Program Secretary should plan to spend several hours inputting the new information into the parish census program.

Offertory Tracking:

The Tracking Phase of the program begins **the weekend following Commitment Weekend**. This is the time where the actual results will be tallied and compared to the previous year's collections. It is anticipated that the actual percentage increased will be slightly different than the percentage increase suggested on the Commitment Forms (either higher or lower). This is because some parishioners will have made decisions to increase their giving without completing a Commitment Form, and because the Commitment Forms will be averaged into weekly equivalents – whereas parishioners may continue to give monthly, quarterly or even annually.

Weekly Bulletin Reports:

Following the conclusion of the program in the parish, **regular offertory reports should be provided in the bulletin**. These reports should include the amount given since the last report and a comparison to the previous year during that same timeframe. The reports should also include the year-to-date percentage increase over last year at the same time. These need not be weekly reports, though that is recommended, but the reports should be provided monthly at a minimum. This process will help the parishioners to understand how they are doing in comparison to the commitments they made. Parishes already providing weekly offertory totals in the bulletin should simply add the comparison figures to their regular report.

Annual Financial Reports:

Most parishes provide annual reports in the fall. These should be expanded slightly to offer a report on how the parish has done **in comparison to previous years** and in comparison the suggested increases that were offered on the Commitment Forms.

Redemption:

Because the intentions written on the **Commitment Forms are not pledges or legally binding documents**, there is no method for ensuring parishioners honor their commitments and the Program Office won't be able to provide an accurate projection on what to expect. A parish's Finance Committee should apply a discount (7% - 15%) to the commitments being made in order to account for natural attrition in the parish and unforeseen circumstances that will cause donors to reduce contributions. Future annual reports will help the Finance Council determine a more appropriate discount based on actual results.

Financial reports in the weekly bulletin and at year's end are the recommended methods for reminding parishioners of their commitments, and they are done parish-wide as opposed to individual reminders.

Renewal:

Annual renewals of commitments should be instituted in order to **reach new families and to offer parishioners the opportunity to increase their giving** if they are so inclined. The commitment process encourages families to be a part of the budgeting process. After several years, the Renewals will become a common practice and parishes will be able to apply the necessary discounts and accurately budget for the coming year based on the commitments being offered. It is recommended that Renewals take place in the fall in order to allow the parish to benefit from diocesan-wide publicity.

The Renewal program will involve mailing Commitment Forms to all parishioners, several weekends of announcements and a target date for receiving all Commitment Forms. A Continuation Manual containing a guide for conducting Renewals will be provided to the parishes upon completion of the *Sharing Our Blessings* program.
